

A Support Group, part of Options Care Centre in George (South Africa), has been meeting weekly for many months.

The group experienced wonderful encouragement by being together but they also needed to create income.

The lady who made that first pair of earrings passed the idea on to another woman... who then decided to share it with the Group and then Amacici was born.

Options bead creations

Options Care Centre, a project of Youth for Christ, reaches out to people facing pregnancy or HIV crises. By purchasing Amacici jewelry you provide financial support for people in the Group and their families.
