ENERGIST® VPL MEDICAL  
AESTHETIC TREATMENTS

**Non-Surgical Facelift**

- Reduce Fine Lines and Wrinkles
- Reduce Pore Size
- Remove Pigmentation
- Remove Thread Veins / Rosacea

**Laser Hair Removal**

ENERGIST® VPL is the most advanced skin  
rejuvenation and hair removal technology available

non-surgical facelift

## **NON SURGICAL FACELIFT:**

### ***LASER SKIN REJUVENATION: ANTI-AGING AND SUN DAMAGE***

The light from ENERGIST® VPL (Variable Pulsed Light) stimulates cells in our body to produce more collagen. The new collagen moves outwards to the skin's surface resulting in a smoother texture and reduced fine lines and wrinkles.

### ***PIGMENTATION REDUCTION***

Dark pigments in the skin that cause pigmentation, absorb the light from the VPL and heat up quickly. The heat is breaking up the dark pigments into smaller particles, which are removed by the body's natural waste process, leaving the skin clear and smooth.

### ***THREAD VEIN REMOVAL***

VPL Light energy is absorbed by the blood vessel that makes up the imperfection. This absorption process breaks down the vessel walls. The VPL treatments then allows the body to recognise these broken vessels as waste and removes them naturally.
