

TEETH WHITENING

## BRIGHTEN YOUR SMILE

boost your confidence with a 100% natural instant teeth whitening treatment

SHAPE & BEAUTY  
THE FAT FREEZE CLINIC

### TEETH WHITENING:

PURE SMILE is a 100% natural teeth whitening treatment. Zero Peroxide, Zero Perborate and FDA approved.

#### HOW DOES IT WORK?

Pure Smile is a **30 min once off** treatment

- 1 The **100% natural** treatment liquid is placed on top and bottom of the mouth guard.
- 2 You insert the guard into your mouth and we apply an **LED light for 30 minutes** to activate the process.
- 3 You get to judge your **immediate results** according to our teeth shade guide.

#### HOW LONG DOES IT LAST?

We recommend going for a treatment **once a year**. However, if you are a smoker or a coffee, tea, red wine drinker, you might have to repeat the treatment more often.

#### IS IT SAFE?

Yes, "Pure Smile" it is completely safe since the formula is 100% natural. There is absolutely no complication after the treatment. (No gum irritation, No sensitive teeth).

Pregnant? No problem, "Pure Smile" is completely safe for expecting mothers. There's also no age limit.

#### CAN YOU DO THE TREATMENT IF YOU HAVE CROWNS, CAPS, VENEERS, ROOT CANAL OR BRACES?

Yes, you can. It will not affect it in any way, however please bear in mind that teeth whitening treatments only works on natural teeth.

If you have braces, you'll have to wait till six months after removal before performing the treatment.

#### HOW MANY SHADES WILL I GAIN?

We cannot predict the result since everyone reacts differently to the treatment. However we guarantee 2 shades lighter (visible immediately) and you can gain up to 9 shades.

Please bear in mind that we are not all born with a Hollywood smile. You will not be able to go lighter than your genetic shade (the one you were born with).

### **DOES IT REMOVE STAINS?**

Like any other teeth whitening treatments, "Pure Smile" does not work on stains due to antibiotics, fluorides, and chemicals present in tap water.

### **RECOMMENDATION**

Buy your PureSmile Instant Whitening Toothpaste in our clinic.

**Finally, a quality product that gives you a whiter and brighter smile without any of the harmful chemicals!**

A fluoride-free toothpaste with amazing cleaning effect. Bicarbonate of soda adds a natural, gentle and efficient whitening and removes plaque. Xylitol kills bacteria that cause plaque while a fine grade of diatomaceous earth gently polishes the teeth. Methyl salicylate (wintergreen oil) gets rid of tooth sensitivity. It's even safe enough to be applied directly on open lesions and after tooth extractions. Tea tree oil is effective in treating Periodontal disease and bad breath. Clove and cinnamon leaf oil make it very effective for the relief of dental pain, tooth ache, sore gums and mouth ulcers.
