The doctors of Grey Sloan Memorial Hospital deal with life-or-death consequences on a daily basis -- it's in one another that they find comfort, friendship and, at times, more than friendship. Together they're discovering that neither medicine nor relationships can be defined in black and white. Real life only comes in shades of grey.

**B**ekezela was born in KwaBulawayo in Zimbabwe. In 2008 Bekezela moved to South Africa to follow his musical passion and for many years in Johannesburg he struggled to record his music. In 2010 while doing a part time job digging a trench in Sandton, he composed the song Bekezela. "Bekezela is a cry from a young man who is in a long distance relationship due to circumstances beyond his control", says the artist. It is an emotional song depicting true love and trust through the reassurance that one day soon, no borders shall keep this young man and his far-away love apart. His 13 tracks debut release will put him on the world map.
