

DOWNPIPES

All PVC (polly vinyl chloride) downpipes used are manufactured by Marley, are ultra violet (UV) stabilized and SABS approved. They are available in sizes as shown below

	Round				Square / Rectangular			
	76mm	90mm	100mm	150mm	75x75	76x60	100x75	100x100
PVC	✓		✓	✓	✓	✓		
Fluted aluminium						✓	✓	
Flat aluminium	✓	✓	✓	✓	✓	✓	✓	✓

The above downpipe sizes are standard but any size can be manufactured, by hand, from flat aluminium, restricted only by the width of the material

SPREADERS

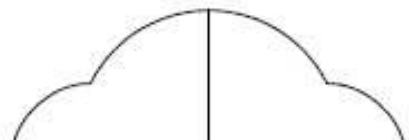

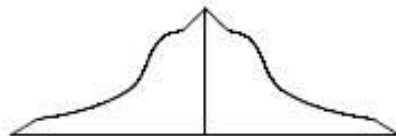

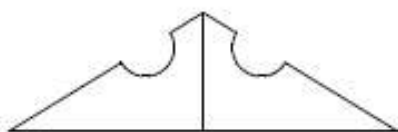

Spreaders, to disperse water onto a lower roof, purpose made bends and plinths along with all downpipe accessories can be manufactured to order.

FUNNEL OUTLETS

Funnel outlets increase downpipe carrying capacity, are colour coded and kept as stock items

MITRE GUARDS

Mitre guards are colour coded to match your gutter and made to your specification. Below are a few more popular profiles

MISCELLANEOUS

Leaf guards, tank sediment traps and various water saving devices are available for fitting with your new gutter system. Ask your representative.
